Contents of Volume 17

Number 1, February 1987

Effects of Trimoprostil, a prostaglandin F_2 analogue, on human gastric acid secretion and soluble mucin output
S. P. Lee, Jane F. Nicholls and A. M. Robertson 1

Increased levels of platelet-activating factor in blood from patients with cirrhosis of the liver
C. Caramelo, S. Fernández-Gallardo, J. C. Santos, P. Iñarrea, M. Sánchez-Crespo, J. M. López-Novoa and L. Hernando 7

Insulin sensitivity and beta-cell function assessed by C-peptide in young adults with cystic fibrosis
T. M. E. Davis, J. C. Batten, A. S. Rudenski and R. C. Turner 12

Regional variation in high-density lipoprotein binding to human adipoctye plasma membranes in massively obese subjects
A. M. Salter, Bessie S. Fong, J. Jimenez, Lorne Rotstein and A. Angel 16

Very low density lipoprotein metabolism after insulin over-treatment and during a euglycaemic clamp
Y. T. Kruszynska, P. D. Home and K. G. M. M. Alberti 23

Acetaldehyde modification of low density lipoprotein accelerates its catabolism in man
Y. A. Kesäniemi, K. Kervinen and T. A. Miettinen 29

Exaggerated natriuretic response to isotonic volume expansion in hypertensive renal transplant recipients: evaluation of proximal and distal tubular reabsorption by simultaneous determination of renal plasma clearance of lithium and ^{51}Cr-EDTA
A. H. Nielsen, F. Knudsen, H. Danielsen, E. B. Pedersen, P. Fjeldborg, M. Madsen, J. Brochner-Mortensen and H. J. Kornerup 37

Alterations in the peritoneal transport of water and solutes during peritonitis in continuous ambulatory peritoneal dialysis patients
R. T. Krediet, F. M. J. Zuyderhoudt, E. W. Boeschoten and L. Arisz 43

Production of 5-lipoxygenase pathway metabolites by peripheral leucocytes in capillary leak syndrome (Clarkson disease)
E. Rondeau, J. Sraer, M. Bens, L. Moulonguet Doleris, R. Lacave and J. D. Sraer 53

Role of alpha-adrenoceptors for adipocyte size in man
P. Arner, C. Marcus, B. Karpe, T. Sonnenfeld and P. Blome 58

A new model to assess deoxycholic acid metabolism in health using stable isotope dilution technique
F. Stellaard and G. Paumgartner 63

Effects of vitamin E therapy on ethanol-induced changes in platelet aggregation, thromboxane formation, factor VIII levels and serum lipids
M. Hillbom, A. Muuronen, J. Neiman, G. Björk, N. Egberg and M. Kangasaho 68

Haematological and hormonal responses to dynamic exercise in patients with chronic airway obstruction
M. Gimenez, T. Mohan-Kumar, J.-C. Humbert, Nicole de Talances, M. Teboul, J. L. Ponz and J. M. Polu 75

Collagen metabolism in normal and complicated pregnancy: changes in the aminoterminal propeptide of type III procollagen in serum
Leila Risteli, Ulla Puistola, Hannele Hohtari, Antti Kauppila and Juha Risteli 81

Type 1 (insulin-dependent) versus Type 2 (non-insulin dependent) diabetes mellitus: characterization of serum lipoprotein alterations
P Weisweiler and P. Schwandt 87

Letters to the Editor 92

Number 2, April 1987

Effect of naloxone on the antral motor response to solid food in man
G. R. Sharpe, W. D. W. Rees, T. E. Adrian, N. D. Christofides and S. R. Bloom 95

Radionucleide tests for the assessment of intestinal permeability
R. H. Behrens, K. F. Szaz, C. Northrop, M. Elia and G. Neale 100

Altered interaction between triiodothyronine and its nuclear receptors in absence of cortisol: a proposed mechanism for increased thyrotropin secretion in corticosteroid deficiency states
Ph. De Nayer, B. Dozin, Y. Vandeput, F. C. Bottazzo and J. Crabbe 106

Increased visualization of antral gastrin-producing G-cells after acute stimulation of gastric release in the rat
H. Koop, Bernadette Schubert, H. Schwarting, D. Schikierka, R. Eissele, S. Willemer and R. Arnold 111

Metabolic consequences of differing protein diets in experimental renal disease
A. J. Williams and J. Walls 117

Pathogenesis of clinical hyponatremia: observations of vasopressin and fluid intake in 100 hyponatremic medical patients
P. A. Gross, H. Pehrisch, W. Rascher, A. Schömig, E. Hackenthal and E. Ritz 123

Amino acid metabolism during the anabolic phase of severely burned patients: with special reference to sulphur amino acids
J. Mårtensson, J. Larsson and H. Nordström 130

Iron uptake by rat duodenal microvillous membrane vesicles: evidence for a carrier mediated transport system
W. Stremmel, G. Lotz, C. Niederau, R. Teschke and G. Strohmeyer 136

Interaction between leukotriene D_4 and adenosine or iloprost in the isolated working guinea-pig heart: prevention of the leukotriene D_4 effect
O. G. Björnsson, K. Kobayashi and J. R. Williamson 146

Heterogeneous distribution of beta and alpha-2 adrenoceptor binding sites in human fat cells from various fat deposits: functional consequences
P. Mauriege, J. Galitzky, M. Berlan and M. Lafontan 156

In-vivo studies on Haemaccel-fibronectin interaction in man
P. Damas, A. Adam, Cl. Renard, M. Lamy, J. B. Foidart and Ph. Mahieu 166

Postsynaptic α_1- and α_2-adrenoceptors in human blood vessels: interactions with exogenous and endogenous catecholamines
K. Jie, P. Van Brummelen, P. Vermey, P. B. M. W. M. Timmermans and P. A. Van Zwieten 174

Severe sodium restriction alone and with potassium supplementation does not alter blood lipoproteins in essential hypertension
S. E. Kjeldsen, I. Taylor, A. Westheim, O. P. Foss, P. Leren and I. K. Eide 182

Book Review

Number 3, June 1987

Seeking clues for a positive diagnosis of the irritable bowel syndrome
P. Vernia, G. Latella, F. M. Magliocca, G. Mancuso and R. Caprilli 189

Messenger RNA content and complexity in normal and overloaded rat heart
D. de la Bastie, J. M. Moalic, J. Bercovici, P. Bouveret, K. Schwartz and B. Swynghedauw 194

Increased DNA synthesis in adipocytes and capillary endothelium in rat adipose tissue during overfeeding
Grazyna Sypniewska and P. Björntorp 202

Responses of peripheral blood cells and lymphocyte subpopulations to insulin-induced hypoglycaemia in human insulin-dependent (Type 1) diabetes
B. M. Fisher, J. G. Smith, D. C. McCruden and B. M. Frier 208

Dihydralazine induces marked cerebral vasodilation in man
T. Schroeder and H. Sillesen 214

Studies on collagen metabolism in the Marfan syndrome
K. P. Müller, A. G. Nerlich, D. Kunze and P. K. Müller 218

Bactericidal capacity against *Neisseria meningitidis* of normal human serum and sera with functional deficiencies of the third and eighth complement factor
M. Strate, H. Olsen and B. Teisner 226

Effect of modulators on prostasome membrane-bound ATPase in human seminal plasma
G. Ronquist 231

Normal pathways for glucuronidation, sulphation and oxidation of paracetamol in Gilbert's syndrome
D. Ullrich, A. Sieg, R. Blume, K. W. Bock, W. Schröter and J. Bircher 237

Effect of the composition of very low and low density lipoproteins on the rate of cholesterylester transfer from high density lipoproteins in man, studied *in vitro*
R. P. F. Dullaart, Johanna E. M. Groener and D. W. Erkelens 241

Complete iodide trapping defect in two cases with congenital hypothyroidism: adaptation of thyroid to huge iodide supplementation
F. A. Leger, R. Doumith, C. Courpotin, O. B. Helal, N. Davous, A. Aurengo and J. C. Savoie 249

Priming of neutrophils for enhanced oxidative burst by sputum from cystic fibrosis patients with *Pseudomonas aeruginosa* infection
A. Kharazmi, C. Rechnitzer, P. O. Schiotz, T. Jensen, L. Baek and N. Hoiby 256

Quinidine reduces biliary clearance of digoxin in man
B. Angelin, Annie Arvidsson, R. Dahlqvist, Ann Hedman and Karin Schenck-Gustafsson 262

Insulin deficiency and insulin resistance in Type 2 (non-insulin-dependent) diabetes: quantitative contributions of pancreatic and peripheral responses to glucose homeostasis
R. Nesher, L. Della Casa, Y. Litvin, J. Sinai, G. del Rio, Bella Pevsner, Y. Wax and E. Cerasi 266

Highly significant negative correlations between erythrocyte aggregation value and serum concentration of high density lipoprotein cholesterol in a sample from a normal population and in patients with coronary heart disease
G. Ruhenstroth-Bauer, G. Mössmer, J. Ottl, S. Koenig-Erich and G. Heinemann 275

Number 4, August 1987

Editorial: Potential role of somatostatin analogues in the treatment of cancer
S. W. J. Lamberts, J. W. Koper and J.-C. Reubi 281

Sodium balance as a determinant of prostacyclin production by isolated rat aorta
R. Düsing, G. Landsberg, R. Pietsch, R. Scherhag, C. Söntgerath and H. J. Kramer 288

Effect of 16,16-dimethyl prostaglandin E_2 on small intestinal mucosa in suckling rats
H. R. Koelz, M. J. Lentze, O. M. Müller and F. Halter 293

Inhibition of muscular amino acid release by lipid infusion in man
M. Wicklmayr, K. Rett, Bettina Schwiegelshohn, G. Wolfram, Susanne Hailer and G. Dietze 301

Xenopsin- and neurotensin-like peptides in gastric juice from patients with duodenal ulcers
C. Shaw, F. Stöckmann and J. M. Conlon 306

Time-course of alterations of high density lipoproteins (HDL) during thyroxine administration to hypothyroid women
Cecilia Verdugo, L. Perrot, G. Ponsin, Catherine Valentin and François Berthezene 313

Comparison of serum cardiac specific troponin-I with creatine kinase, creatine kinase-MB isoenzyme, tropomyosin, myoglobin and C-reactive protein release in marathon runners: cardiac or skeletal muscle trauma?
P. Cummins, A. Young, M. L. Auckland, C. A. Michie, P. C. W. Stone and B. J. Shepstone 317

Formation of prostaglandins and leukotrienes by human lung tissue *in vitro* after activation by the calcium ionophore A23187
F. J. Zijlstra, M. Naaktgeboren, H. Mons and J. E. Vincent 325

Identification and characterization of α_1- and β_2-adrenergic receptors in human liver
M. Bevilacqua, T. Vago, G. Norbiato, E. Chebat, G. Baldi, R. Meroni and E. Regalia 330

Prognostic value of serum lactic dehydrogenase (S-LDH) in multiple myeloma
B. Simonsson, G. Brenning, C. Källander and A. Åhre 336

A light microscopic and biochemical study of carbon tetrachloride-induced pulmonary fibrosis in rats: the preventive effect of malotilate
P. Pääkkö, L. Ala-Kokko and L. Ryhänen 340

Enhanced biliary gamma-glutamyltransferase

excretion following prolonged alcohol consumption in rats
R. Teschke, S. Krukenberg, W. Stremmel and M. Nishimura 347

Relationship between growth hormone and Somatomedin-C levels in untreated acromegaly, after surgery and radiotherapy and during medical therapy with Sandostatin (SMS 201-995)
S. W. J. Lamberts, P. Uitterlinden and T. Verleun 354

Analysis of liver-specific protein LSP using murine monoclonal antibodies
T. Poralla, M. Manns, H. P. Dienes, W. Dippold, T. H. Hütteroth and K.-H. Meyer zum Büschenfelde 360

Calcium transport across the colon ascendens and the influence of 1,25-dihydroxyvitamin D_3 and dexamethasone
U. Karbach and W. Rummel 368

Number 5, October 1987

Role of polyamines in intestinal adaptation in the rat
M. Hosomi, N. H. Stace, F. Lirussi, S. M. Smith, G. M. Murphy and R. H. Dowling 375

Bile acids in peroxisomal disorders
J. R. Van Eldere, G. G. Parmentier, H. J. Eyssen, R. J. Wanders, R. B. Schutgens, J. Vamecq, F. Van Hoof, B.-T. Poll-The and J. M. Saudubray 386

Cholesterol absorption efficiency regulates plasma cholesterol level in the Finnish population
Y. A. Kesäniemi and T. A. Miettinen 391

Bezafibrate therapy and biliary lipids: effects of short-term and long-term treatment in patients with various forms of hyperlipoproteinaemia
M. Eriksson and B. Angelin 396

Changes in serum lipoproteins in humans following the infusion of a fat emulsion containing medium- and long-chain triglycerides
S. Hailer, G. Wolfram and N. Zöllner 402

Decreased production of glutathione in patients with cirrhosis
J.-M. Burgunder and B. H. Lauterburg 408

Parathyroid hormone directly inhibits tubular reabsorption of bicarbonate in normocalcaemic rats with chronic hyperparathyroidism
P. Jaeger, W. Jones, M. Kashgarian, G. V. Segre and J. P. Hayslett 415

Periodic courses of human 1–34 parathyroid peptide alternating with calcitriol paradoxically reduce bone remodelling in spinal osteoporosis
J. Reeve, Monique Arlot, T. R. Price, C. Edouard, R. Hesp, Patricia Hulme, J. P. Ashby, Joan M. Zanelli, J. R. Green, M. Tellez, D. Katz, T. J. Spinks and P. J. Meunier 421

Relationship between urinary prostaglandin E_2 and $F_{2\alpha}$ excretion and plasma arginine vasopressin during renal concentrating and diluting tests in renal transplant recipients
E. B. Pedersen, P. Christensen, H. Danielsen, H. Eiskjær, B. Jespersen, F. Knudsen, H. J. Kornerup, P. P. Leyssac, A. H. Nielsen and S. S. Sørensen 429

Neutrophils are hyperpolarized after exudation and show an increased depolarization response to formyl-peptide but not to phorbol myristate acetate
W. Zimmerli, B. E. Seligmann and J. I. Gallin 435

Renal haemodynamics and sodium handling after hyperoncotic albumin infusion in sodium-restricted normal man
W. H. Boer, H. A. Koomans and E. J. Dorhout Mees 442

Captopril enhances insulin responsiveness of forearm muscle tissue in non-insulin-dependent diabetes mellitus
K.-W. Jauch, W. Hartl, B. Guenther, M. Wicklmayr, K. Rett and G. Dietze 448

Cysteinyl leukotrienes as mediators of staphylococcal enterotoxin B in the monkey
P. H. Scheuber, C. Denzlinger, D. Wilker, G. Beck, D. Keppler and D. K. Hammer 455

Serum amyloid A protein compared with C-reactive protein, alpha 1-antichymotrypsin and alpha 1-acid glycoprotein as a monitor of inflammatory bowel disease
R. E. Chambers, P. Stross, R. E. Barry and J. T. Whicher 460

Number 6, December 1987

Editorial: Interleukin-1 in the pathogenesis of fever
S. Endres, J. W. M. van der Meer and C. A. Dinarello 469

Review: Use of DNA probes for diagnosis and prevention of inherited disorders
H. H. Ropers 475

Induction of the monooxygenase enzyme system in human lung
E. E. Ohnhaus and R. C. Bluhm 488

Nephrotoxicity of cyclosporin A in humans: effects on glomerular filtration and tubular reabsorption rates
H. Dieperink, P. P. Leyssac, E. Kemp, H. Starklint, N. E. Frandsen, N. Tvede, J. Møller, P. Buchler Frederiksen and N. Rossing 493

Natural killer cell activity during cortisol and adrenaline infusion in healthy volunteers
E. Tønnesen, N. J. Christensen and M. M. Brinkløv 497

Changes in energy expenditure and fat metabolism in rats infused with interleukin-1
Rosalie Tocco-Bradley, M. Georgieff, Catherine T. Jones, L. L. Moldawer, C. A. Dinarello, G. L. Blackburn and B. R. Bistrian 504

Alcohol impairs age-dependent adaptation of human lymphocyte beta-adrenergic receptors
A. Padovani, S. Govoni, F. Battaini, Maria Sandra Magnoni, L. Civelli, A. Mauri, G. B. Picotti, Maria Donata Galva and M. Trabucchi 511

Monoclonal anti-HBs antibodies radioimmunoassay and serum HBV-DNA hybridization as diagnostic tools of HBV infection: relative prevalence among HBsAg-negative alcoholics, patients with chronic hepatitis or hepatocellular carcinomas and blood donors
S. Pol, V. Thiers, B. Nalpas, F. Degos, C. Gazengel, F. Carnot, P. Tiollais, J. R. Wands, P. Berthelot and C. Brechot 515

Effect of dietary cholesterol on production of lipoproteins and apolipoproteins by perfused livers from Japanese monkeys (*Macaca fuscata*)
T. Teramoto, H. Kato, Y. Hashimoto, M. Kinoshita, T. Watanabe, H. Oka and C. Naito 522

Bisphosphonate whole body retention test: relations to bone mineralization rate, renal function and bone mineral content in osteoporosis and metabolic bone disorders
L. Mosekilde, C. Hasling, P. Charles and F. Tågehøj Jensen 530

Abnormal regulation of LDL receptor activity and abnormal cellular metabolism of hypertriglyceridaemic low density lipoprotein: normalization with bezafibrate therapy
Y. Kleinman, Y. Oschry and S. Eisenberg 538

Prolonged administration of human atrial natriuretic peptide in healthy men: evanescent effect on diuresis in spite of simultaneous infusion of norepinephrine
H. Vierhapper and P. Nowotny 544

Human platelet factor 4 and protamine sulphate interaction with glycosaminoglycans in the rabbit
G. Cella, C. J. Myers, M. Prosdocimi and A. A. Sasahara 548

Editorial Acknowledgments 555
